## Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

## How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Corporations and Labour Unions Returns Act (CALURA)  
Sub-Division,  
Industrial Organization and Finance Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 951-9858)  
or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Winnipeg	(983-4020)
Halifax	(426-5331)	Regina	(780-5405)

## Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous diverses formes. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordiolingue et le système d'extraction de Statistique Canada.

## Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Sous-division des déclarations des corporations et des syndicats  
ouvriers (CALURA),  
Division de l'organisation et finances de l'industrie,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 951-9858) ou  
au centre de consultation de Statistique Canada à:

## Introduction

This latest **Inter-Corporate Ownership** (ICO) publication is a reliable index of who owns and/or controls whom in Canada. It is intended to serve as an essential reference tool for corporate executives, bankers, financiers, marketing managers, investors, researchers and the general public, all of whom desire the latest detailed information on the corporate structure of Canadian society.

The ownership (voting equity) information contained in this directory is primarily based upon non-confidential returns filed by Canadian corporations under the Corporations and Labour Unions Returns Act (CALURA) for the period ending between October 30, 1986 and January 31, 1987. It has been supplemented from a broad range of national and international data sources for major changes in corporate ownership which occurred prior to November 30, 1987. In addition, using such international publications as **Moody's, Jane's, and Who Owns Whom**, information on ultimate foreign parent corporations, has been obtained. In many cases, this research has resulted in expanded enterprise structures, spanning several countries and providing insights into the organization of multi-national enterprises operating in Canada.

Wherever possible, researchers have analyzed any options, insider holdings, convertible shares or interlocking directorates which could affect the control of a corporation. In a number of cases, reported nominees have been replaced by true owners and information on certain family controlled corporations is included.

The ICO is divided into two main sections; a Corporate Ownership Section and an Index. The Corporate Ownership Section shows the portion of voting rights of a corporation owned or held by another corporate body or group of related individuals. All holdings of an enterprise are shown in one location, and they are presented in an easy-to-read tiered fashion with each successive layer of held corporations being indented.

## Introduction

Cette dernière version de la publication **Liens de parenté entre corporations** indique qui possède ou contrôle qui au Canada. Cet ouvrage devrait s'avérer essentiel pour les directeurs de sociétés, les banquiers, les financiers, les responsables de mise en marché, les investisseurs, les chercheurs et le grand public, tous ceux qui désirent obtenir des renseignements détaillés sur la structure des sociétés au Canada.

Les renseignements de propriété (actions ayant le droit de vote) contenus dans le présent document sont principalement basés sur des déclarations non confidentielles faites par les sociétés canadiennes en vertu de la Loi sur les déclarations des corporations et des syndicats ouvriers (CALURA) pour la période se terminant entre le 30 octobre 1986 et le 31 janvier 1987. On s'est également servi de nombreuses autres sources nationales et internationales pour obtenir des renseignements sur les changements majeurs d'appartenance des sociétés qui ont eu lieu avant le 30 novembre 1987. Ainsi, on s'est servi de publications internationales, comme **Moody's, Jane's** et **Who Owns Whom**, pour obtenir des renseignements sur les sociétés étrangères qui étaient les propriétaires ultimes. Dans bien des cas, cette recherche a fait ressortir des structures plus vastes, s'étendant dans de nombreux pays et a éclairé sous un angle nouveau l'organisation des multinationales en activité au Canada.

Dans la mesure du possible, nos chercheurs ont effectué des recherches afin de trouver les options, les parts d'unités, les actions convertibles et les conseils d'administration liés susceptibles d'influencer le contrôle d'une société. En maintes occasions, ils ont remplacé les propriétaires figurant sur les registres par les propriétaires véritables. Enfin, ils ont trouvé des renseignements sur certaines sociétés familiales.

Le présent document est divisé en deux parties principales: la première porte sur les liens de parenté entre corporations et la deuxième est un index. La première partie donne la proportion des droits de vote d'une société détenus par une autre société ou par un groupe de personnes apparentées, ou leur appartenant. Tous les avoirs d'une entreprise sont présentés au même endroit, par échelons afin d'en faciliter la consultation. Chaque couche successive de sociétés détenues est mise en retrait par rapport aux autres.

A country of control has been ascribed to most corporations. Each active Canadian corporation is also given a Standard Industrial Classification (SIC), and the province of its head office is noted. This presents a picture of enterprise activity in terms of horizontal and vertical integration, conglomeration and multinational participation.

The index includes all foreign-controlled corporations (in boldface print), even those without inter-corporate ownership. It also includes multiple references for corporations that appear on several pages.

### **Special Note**

It is possible that information supplied to the CALURA Administration under the Act, or obtained from research sources, could be in error. Any inaccuracies brought to the attention of the authors will be corrected in a subsequent edition.

On attribue un pays de contrôle à la plupart des corporations. On attribue aussi à chaque société canadienne en activité un code CTI (Classification type des industries) et on indique la province où est établi le siège social. Cela donne une image du degré d'intégration horizontale et verticale des entreprises, de la présence de conglomerats et de la participation multinationale.

L'index comprend toutes les sociétés sous contrôle étranger en caractères gras, y compris celles qui n'ont aucun lien de parenté. Il indique plusieurs renvois lorsqu'une société paraît à plusieurs pages.

### **Note particulière**

Il se peut que certains renseignements fournis à l'administration de CALURA en vertu de la Loi, ou obtenus au cours des recherches, soient erronés. Toute inexactitude signalée aux auteurs sera corrigée dans une prochaine édition.

## HOW TO USE THE PUBLICATION

Assuming that the reader wishes to obtain information about a specific corporation, the Index Section, which reveals the location of the information, is described first.

The **Index Section** is an alphabetical listing of all the corporations and related groups contained in the Corporate Ownership Section. All foreign-controlled corporations in Canada are included and are shown in bold-face print.

In sorting names for the index most articles, conjunctions and prepositions in both English and French, as well as punctuation, are ignored. Specifically, note that **DE HAVILLAND CANADA INC** appears under **HAVILLAND**. In addition, the words **COMPAGNIE, CORPORATION, LIMITÉE**, and **LIMITED** are shortened and are found under **CIE, CORP, LTÉE** and **LTD.**, respectively. Names starting with a number appear at the beginning of the index.

If a corporation appears on more than one page, multiple listings for that corporation are provided. All page numbers are followed by either the letter "A" or "B", indicating the left-hand or right-hand column, respectively, of the noted page.

For further information, refer to the "Description" preceding the Index.

The **Corporate Ownership Section** shows the names of all holding and held companies, and the respective ownership percentages, in a tiered format, with each succeeding level indented.

For a specific corporation, each line in the Corporate Ownership Section shows, (The column headings are shown in brackets):

its country of control (CTL),

The Standard Industrial Classification (SIC),

the country of residence or province of its head office (RES),

the percentage of voting rights held (%) by the immediately preceding upper-level corporation (with a level number decreased by one),

a comment (C),

## UTILISATION DE LA PUBLICATION

Comme la plupart de nos lecteurs désirent obtenir des renseignements sur une société particulière, nous décrivons d'abord l'index, qui indique où se trouvent ces renseignements.

L'**index** est une liste alphabétique de toutes les sociétés et de tous les groupes apparentés qui figurent dans la partie sur les liens de parenté entre corporations. Toutes les sociétés sous contrôle étranger qui font affaire au Canada y figurent en caractères gras.

Dans l'ordre des noms, nous n'avons pas tenu compte de la plupart des articles, conjunctions et prépositions, tant en français qu'en anglais, ni de la ponctuation. Par exemple, **DE HAVILLAND CANADA INC.** figure sous **HAVILLAND**; les mots **COMPAGNIE, CORPORATION, LIMITÉE** et **LIMITED** sont abrégés respectivement par **CIE, CORP, LTÉE** et **LTD.**; les chiffres précèdent les lettres dans l'ordre alphabétique.

Si une société figure à plus d'une page, l'index donne plusieurs renvois. Tous les numéros de page sont suivis de la lettre "A" ou "B", qui représentent respectivement la colonne de gauche et la colonne de droite de la page mentionnée.

Pour plus de renseignements, consultez la "Description" qui précède l'index.

La **partie sur les liens de parenté entre corporations** donne le nom de toutes les sociétés actionnaires ou détenues et les pourcentages correspondants des droits de vote détenus. Les sociétés sont présentées par échelons, et chaque échelon suivant est mis en retrait.

Chaque ligne de cette partie contient les renseignements suivants pour chaque société donnée (les en-têtes des colonnes sont entre parenthèses):

le pays de contrôle (CTL),

la classification type des industries (CTI),

le pays de résidence ou la province où est situé le siège social (RES),

le pourcentage des droits de vote détenus (%) par la société qui figure à l'échelon immédiatement au-dessus (dont le numéro d'échelon est inférieur d'une unité).

un commentaire (C),

the level number (LEV), and  
the name (CORPORATION NAME).

For each enterprise, the name of the parent corporation is shown in boldface print, and has a level number (LEV) of "01". If there are any other corporations that hold an investment in the enterprise parent, they are identified as investors (INV:) and are listed preceding the "01" line. Next all the ownership relationships to other corporations are presented in a tiered format – each successive layer of owned corporations is indented further, and has a level number increased by one. Some of these owned corporations may be members of another enterprise, and they are identified by a "D" in the comment column. Please see Statistical Notes and Definitions for an explanation of control and enterprise.

In this section, if the country of residence is Canada, then a specific province is shown. Also, branches in Canada of foreign legal entities are treated the same as Canadian legal entities and are assigned the province of residence of the branch operation (RES).

The country and province mnemonics, SIC codes, comments, and other information are provided on the ivory-coloured pages.

le niveau (NIV), et  
le nom (NOM DE LA CORPORATION).

Le nom de la société mère de chaque entreprise figure en caractères gras et possède le niveau (NIV) "01". Si d'autres sociétés détiennent des actions de la société mère, on les retrouve sur des lignes distinctes qui précèdent la ligne "01", et ou les identifie comme inventisseurs (INV:). Ensuite, tous les liens de parenté avec d'autres sociétés sont présentés par échelon et chaque couche successive de sociétés détenues est mise en retrait et possède un numéro d'échelon augmenté d'une unité. Certaines de ces sociétés détenues peuvent faire partie d'une autre entreprise; elles sont alors identifiées par un "D" dans la colonne des commentaires. Veuillez consulter les Notes statistiques et définitions pour la définition de contrôle et d'entreprise.

On indique la province lorsque le pays de résidence est le Canada. Également, les succursales au Canada d'entreprises étrangères sont considérées comme des sociétés canadiennes et on indique, dans la colonne de pays de résidence, leur province de résidence (RES).

Les abréviations mnémoniques des pays et des provinces, les codes CTI, les commentaires et les autres renseignements figurent aux pages de couleur ivoire.

STATISTICAL NOTES  
AND DEFINITIONS

NOTES STATISTIQUES  
ET DÉFINITIONS

## Coverage and Research

Corporations included in this report are principally those that are required to file a schedule of ownership information under the Corporations and Labour Unions Returns Act (CALURA). The Act, as amended in July 1981, applies to every Corporation that carries on business in Canada or that is incorporated under a law of Canada or a Province, whose gross revenue for the reporting period exceeded \$15 million, or whose assets exceeded \$10 million. In calculating these amounts each corporation must include the assets and sales of its affiliates as defined in the Act. In addition, corporations with assets and sales under these amounts but having long-term debt or equity owing directly or indirectly to non-residents exceeding a book value of \$200,000 must also provide ownership information.

International financial and ownership publications have been researched to obtain true beneficial owners rather than nominees. In addition, the data derived solely from the CALURA returns has occasionally proved insufficient to bring related corporations in Canada together into one enterprise, because corporations are only required to report their first foreign parent. In many of these cases, the first foreign parent was traced back to an ultimate parent corporation. Sometimes this was one or two countries removed from the one reported. This research has resulted in a more accurate assignment of country of control to the enterprises and provided a better overview of multi-national enterprises.

Under the Act, corporations are not required to report the names of individuals owning shares or the names of corporations holding less than 10% of any share class. In a select number of cases, where such ownership was significant, revealed a larger enterprise structure or determined the control of a corporation, data on personal share holdings, or corporate holdings of less than 10%, was obtained and integrated with inter-corporate ownership information.

## Champ d'observation et recherche

Les sociétés étudiées dans le présent rapport sont surtout celles qui doivent présenter des renseignements sur leur appartenance en vertu de la Loi sur les déclarations des corporations et des syndicats ouvriers (CALURA). La Loi, modifiée en juillet 1981, s'applique à toute corporation exerçant une entreprise au Canada ou constituée en vertu d'une loi du Canada ou d'une province, dont le revenu brut pour la période de rapport excédait quinze millions de dollars, ou l'actif excédait dix millions de dollars. Dans ces montants, chaque corporation doit inclure les actifs et les ventes de ses filiales, conformément à la Loi. En outre, les corporations ayant un actif et des ventes inférieures à ces montants, mais dont les créances à long terme ou les actions détenues directement ou indirectement par des non-résidents excédaient une valeur comptable de \$200,000 doivent aussi fournir des renseignements relatifs à leur propriété.

Nos chercheurs ont dépouillé les publications financières et les répertoires internationaux pour trouver les propriétaires véritables. En outre, les déclarations CALURA sont parfois insuffisantes pour regrouper en une seule entreprise des sociétés canadiennes ayant des liens de parenté, dans la mesure où les sociétés sont tenues d'indiquer seulement leur société mère immédiate à l'étranger. Dans de nombreux cas, nous avons établi une liaison avec une société mère ultime dans un (ou deux) pays autre(s) que le pays de contrôle déclaré. Ces recherches nous permettent de déterminer avec plus d'exactitude le pays de contrôle des entreprises et donne une meilleure perspective des entreprises internationales.

Aux termes de la Loi, les sociétés ne sont pas tenues de déclarer le nom des particuliers ou des sociétés qui possèdent moins de 10% d'actions de n'importe quelle classe. Dans certains cas où l'appartenance a joué un rôle important, en révélant l'appartenance à une structure plus étendue d'entreprise ou en déterminant le contrôle d'une corporation, nous avons obtenu des données sur les actions détenues par des particuliers ou sur les avoirs de moins de 10% de sociétés et les avons intégrées aux renseignements sur les liens de parenté entre sociétés.

## Corporate Control

Corporate control is the potential to affect the corporate strategic decision-making process of the board of directors of a corporation.

Direct control is exercised by a person, group or corporation if more than 50% of the voting equity of a corporation is held, directly or indirectly, other than by way of security only, by or for the benefit of that person, group or corporation.

In the case of irrevocable options or the right to acquire shares, the calculation of the voting equity is made as if all options have been exercised. In these cases, direct control is assigned and is denoted in the text by the letter 'A' appearing in the comments column.

The following examples illustrate the concept of control of a corporation based on the majority ownership of its voting rights. Each lettered circle represents a corporation and an arrow indicates its ownership by another corporation.

In example a), corporation A owns 60% of corporation B's voting rights, and so A controls B. Similarly, corporation B controls C, and hence A controls C. The control of B by A is direct control. The control of C by A is indirect control.

## Contrôle d'une Corporation

Le contrôle d'une corporation est le pouvoir d'avoir une incidence sur le processus de prise de décisions stratégiques par le conseil d'administration de cette corporation.

Une personne, un groupe ou une corporation exerce un contrôle direct si plus que 50% des actions ayant le droit de vote d'une corporation sont détenus, directement ou indirectement, autrement qu'à des fins de sécurité, par ou au bénéfice de cette personne, groupe ou corporation.

Lorsqu'il existe des options irrévocables ou des droits d'achat d'actions, on traite les actions ayant le droit de vote comme si ces options avaient été exercées. Dans ces cas, on assigne un contrôle direct et la légende 'A' figure comme commentaire.

Les exemples suivants illustrent la notion de contrôle d'une société fondée sur la possession majoritaire des droits de vote. Chaque lettre encerclée représente une société et l'appartenance à une autre entreprise est indiquée par une flèche.

Dans l'exemple a), la société A détient 60% des droits de vote de la société B, et par conséquent A contrôle B. De la même façon, la société B contrôle C et par conséquent, A contrôle C. Le contrôle de B par A est un contrôle direct, tandis que celui de C par A est un contrôle indirect.

In example b), A controls all other corporations. From the logic of the previous example A controls B and C directly and D and E indirectly. As the sum of the voting rights of F by D and E is 80%, A controls F. This is cumulative indirect control.

Dans l'exemple b), A contrôle toutes les autres sociétés. Selon le même principe que dans l'exemple précédent, A contrôle B et C directement et D et E indirectement. Comme la somme des droits de vote de F détenus par D et E est égale à 80%, A contrôle F. C'est ce que l'on appelle le contrôle indirect cumulatif.

**Example b**  
**Exemple b**

Effective control of a corporation implies control of the corporation through methods other than ownership of the majority voting equity of the corporation. Effective control is referred to as assigned control in the Inter-Corporate Ownership database and publication. Such control is denoted in the text by the letter 'A' appearing in the comments column. An assessment of effective control may be based on any of the following rules:

If more than 50% of the directors of a corporation, are also directors of a trust or an estate, or are also members of a related group, then the corporation is effectively controlled by that trust, estate or related group.

If more than 50% of the directors of a corporation, are also directors of another corporation, and if there is a significant voting ownership relationship between these corporations, then the corporation is effectively controlled by that other corporation.

If a corporation holds voting equity in another corporation which exceeds 20%, and if that block of equity is larger than the combined percentage of the next two largest blocks, then the corporation is effectively controlled by that corporation.

If control is acknowledged by a corporation, then the acknowledgement is sufficient to assign effective control.

The following example illustrates the concept of effective control based on a corporation owning over 20% of the voting equity of a corporation and this holding is greater than the combined percentage of the next two largest holdings.

Le contrôle effectif d'une corporation implique le contrôle d'une corporation par des méthodes autres que la propriété de la majorité des actions ayant le droit de vote. On appelle ce contrôle effectif "contrôle assigné" dans la base de donnée et la publication. Dans ce cas, la légende 'A' figure comme commentaire. On peut assigner un contrôle effectif à une corporation dans les cas suivants:

Si plus que 50% des directeurs d'une corporation sont également directeurs d'une fiducie ou d'une succession, ou sont également membres d'un groupe conjoint, la corporation est contrôlée effectivement par la fiducie, la succession ou le groupe conjoint.

Si plus que 50% des directeurs d'une corporations sont également directeur d'une autre corporation et s'il existe une relation importante de propriété des actions ayant le droit de vote entre les corporations, la corporation est effectivement contrôlée par cette autre corporation.

Si une corporation détient plus de 20% des actions ayant le droit de vote d'une autre corporation, et si ce bloc d'actions est plus grand que le pourcentage combiné des deux plus grands blocs suivants, la corporation est effectivement contrôlée par cette autre corporation.

Si une corporation reconnaît qu'elle est contrôlée, cette déclaration est suffisante pour nous permettre d'assigner le contrôle.

L'exemple suivant illustre la notion de contrôle effectif si la corporation détient plus de 20% des actions ayant le droit de vote d'une corporation et si ce bloc d'actions est plus grand que le pourcentage combiné des deux plus grands blocs suivants.

**Example c**  
**Exemple c**

A has been assigned control of corporation D since it owns the largest block of voting equity which is greater than the combined percentage holding of B and C.

Please note that there are numerous methods of control which are generally outside the scope of this publication. Franchise, marketing arrangements and sales contracts may be used to exercise effective control.

Finally, care should be taken in using the word "controlled". In many cases where control is said to exist, corporations may still function with considerable autonomy in their financial, marketing, or operational activities. The concept of corporate control should be viewed as a potential that exists and is exercised within the framework of a corporate industrial society with highly varied management practices.

## Enterprise

An enterprise is a group of corporations under common control. The controlling interest, referred to as the enterprise head, may be an individual, a related group, a corporation or a government. Controlled corporations are called subsidiaries. A multi-corporation enterprise contains one or more subsidiaries. A corporation that is not controlled by another corporation and that does not control another corporation is called a single-corporation enterprise.

The following examples illustrate these concepts.

In example D, A and B form a multi-corporation enterprise with enterprise head A. C is not controlled by A, and is therefore a single-corporation enterprise.

On assigne à A le contrôle de la corporation D parce qu'elle détient le plus grand bloc d'actions de D et que ce bloc est plus grand que la somme des deux blocs d'actions détenus par les corporations B et C.

Il faut noter qu'il existe de nombreuses formes de contrôle qui n'entrent pas dans le cadre de cette publication. Par exemple les contrats de vente et les accords de concession et de mise en marché peuvent servir à contrôler effectivement une corporation.

Finalement, il faut employer le terme "contrôle" avec prudence. Souvent, même lorsqu'il y a contrôle, les sociétés peuvent conserver une marge d'autonomie considérable en matière de finances, de mise en marché ou d'exploitation. Le contrôle représente avant tout un pouvoir potentiel, exercé dans le cadre de structures industrielles caractérisées par une grande variété de méthodes de gestion.

## Entreprise

Une entreprise est un groupe de sociétés sous contrôle d'une seule société, que l'on appelle tête d'entreprise. Celle-ci peut être un individu, une société, un groupe ou un gouvernement. Les sociétés contrôlées sont appelées filiales. Une entreprise à sociétés multiples contient une ou plusieurs filiales. Une société qui n'est pas contrôlée par une autre et qui n'en contrôle pas d'autres est une entreprise à société unique.

L'exemple suivant illustre ces notions.

Dans l'exemple D, A et B forment une entreprise à sociétés multiples dont A est la tête. C n'est pas contrôlée par A et est une entreprise à société unique.

**Example d**  
**Exemple d**

For each enterprise in the Corporate Ownership Section, all ownership emanating from that enterprise is shown including investments in other enterprises. Referring back to the preceding example, the enterprise parent would be shown as level "01", the 60% link to corporation B would be shown as level "02", and the 20% link to C would be shown as level "03" with a comment of "D" (unless control of C by A had been assigned for reasons other than voting rights, in which case the comment would be "A").

La partie du présent document sur les liens de parenté entre corporations donne toutes les participations majoritaires d'une entreprise dans une autre, ainsi que ses autres participations. Ainsi, dans l'exemple précédent, l'entreprise mère figure à l'échelon "01", elle possède 60% des actions ayant un droit de vote de la société B, qui se trouve à l'échelon "02", et le lien de 20% avec la société C, à l'échelon "03", suivi du commentaire "D" (à moins que le contrôle de C n'ait été attribué à A en vertu d'autres critères que les droits de vote, auquel cas on aurait un "A").

### Country of Control

Each corporation included in the ICO is assigned a "country of control". This is the basis for the analysis of the extent and impact of foreign control within the Canadian economy, as contained in the CALURA Part 1, Corporations, Annual Report to Parliament, catalogue 61-210.

Generally, a corporation is considered to be foreign-controlled if a majority of its voting rights are held in foreign countries, or are held by one or more Canadian corporations that are themselves foreign-controlled. In the case of a multi-corporation enterprise, it is the enterprise head (or parent) that is considered first and each subsidiary within the enterprise is assigned the same country of control as its enterprise parent (see Example e). If the enterprise head is a Canadian-resident corporation, the country of control is ascribed to that country in which the majority of the voting rights are held by both individuals and corporations. In those cases where the holdings of over 50% of the voting rights are distributed among non-associated shareholders in two or more foreign countries, foreign-control is assigned to that foreign country with the largest block of voting equity. If the largest blocks are equal then the country of control is assigned using the order of precedence listed in Appendix A, (See Example i). A parent

### Pays de contrôle

On attribue un "pays de contrôle" à chaque société étudiée dans le présent document. Ce renseignement constitue le fondement de l'analyse de l'étendue et de l'incidence du contrôle étranger au sein de l'économie canadienne, que l'on retrouve dans "Loi sur les déclarations des corporations et des syndicats ouvriers", Partie 1, Corporations, rapport annuel déposé au Parlement, n° 61-210 au catalogue.

De manière générale, on dit qu'une société est sous contrôle étranger quand la majorité de ses droits de vote sont détenus à l'étranger ou appartiennent à une ou plusieurs sociétés canadiennes elles-mêmes sous contrôle étranger. Dans le cas des entreprises à sociétés multiples, on commence par établir le pays de contrôle de la tête d'entreprise ou de la société mère, que l'on attribue ensuite à chaque filiale de l'entreprise (voir l'exemple e). Si la tête d'entreprise est une société résidant au Canada, on attribue son contrôle au pays où la majorité des droits de vote est détenue par des particuliers ou des sociétés. Dans les cas où plus que 50% des droits de vote sont répartis entre des actionnaires indépendants résidant dans plus d'un pays étranger, on assigne le contrôle au pays étranger qui a le bloc le plus important d'actions ayant le droit de vote. Si les blocs les plus importants sont d'égale grandeur, on assigne le pays de contrôle en se basant sur l'ordre de préséance de l'Appendice A (Voir l'exemple i). Une corporation mère dont les droits de vote sont détenus également

corporation whose voting rights are owned equally by a Canadian-controlled and a foreign-controlled corporation is given a foreign control code (see Example g). If two foreign-controlled corporations own the largest and equal amounts of equity which is equal to or greater than 50% of the voting rights of the Canadian corporation, the country of control is assigned using the precedence listed in Appendix A (see Example h). Note, a country of control designation of 'foreign unspecified' is reserved for tax haven countries listed in Appendix B.

Strict adherence to these conventions can lead to a company's reclassification as a result of relatively minor stock transactions when the non-resident ownership of the outstanding voting rights of the company is close to 50%. In order to avoid such swings, the country of control of an enterprise head is changed only when changes in ownership of the voting equity of the enterprise head are substantial or appear to alter the potential or effective control over the management of the company.

In most cases of foreign control, the country of control classification is based on tracing ownership links to the first parent corporation which is a resident of a foreign country. However, it is at times possible to determine that the first foreign parent itself, is in fact controlled by another foreign corporation which may reside in a different foreign country. In such instances control is assigned to the country of control of the ultimate parent.

The following examples illustrate the assignment of a country of control for a corporation. Each lettered circle represents a corporation and an arrow indicates its ownership by another corporation or individuals

60%

(e.g., A → B indicates that corporation A owns 60% of corporation B's voting rights).

In Example e, all corporations are assigned a United States control code.

In Example f, corporations E and G are assigned Canadian control. All other corporations are assigned United Kingdom control.

In Example g, corporation B is assigned Japanese control.

In Example h, corporation C is assigned United States control.

In Example i, corporation B is assigned West German control.

par une corporation sous contrôle étranger et une corporation sous contrôle canadien reçoit un code de contrôle étranger (voir exemple g). Si deux corporations sous contrôle étranger possèdent les blocs les plus importants et égaux d'actions qui sont au total égaux ou plus grands que 50% des droits de vote de la corporation canadienne, le pays de contrôle est assigné en utilisant la liste de préséance de l'Appendice A (voir exemple h). Il faut noter que la désignation "étranger non-déterminé" est réservée aux havres fiscaux énumérés en Appendice B.

La stricte observation des conventions précédentes peut conduire au reclassement d'une société à la suite de petites transactions d'actions lorsque les droits de vote en circulation appartiennent à des non-résidents dans une proportion de près de 50%. Pour éviter cela on ne change le pays de contrôle d'une société mère que lorsque les changements de propriété des actions ayant le droit de vote de cette société mère sont importants ou semblent modifier la possibilité de contrôler effectivement la gestion d'une corporation.

Dans la plupart des cas de contrôle étranger, on détermine le pays de contrôle en remontant jusqu'à la première société mère qui réside dans un pays étranger. Cependant, on découvre parfois que la première société mère étrangère est elle-même contrôlée par une autre société d'un autre pays. On attribue alors le contrôle au pays de la société qui est propriétaire ultime.

Voici des exemples d'attribution de pays de contrôle à une corporation. Chaque lettre encadrée représente une société et l'appartenance à une autre entreprise ou à des particuliers est indiquée par une flèche

60%

(par exemple, A → B signifie que la société A détient 60% des droits de vote de la société B).

Dans l'exemple e, on attribue à toutes les sociétés un contrôle des États-Unis.

Dans l'exemple f, les sociétés E et G sont sous contrôle canadien. Toutes les autres sont sous contrôle du Royaume-Uni.

Dans l'exemple g, la société B est sous contrôle du Japon.

Dans l'exemple h, on considère que la société C est sous contrôle des États-Unis.

Dans l'exemple i, on assigne un contrôle de l'Allemagne de l'Ouest à la corporation B.

## Industrial Classification

The industrial classification of corporations is based on the 1960 Standard Industrial Classification Manual.<sup>1</sup>

When a corporation is engaged in only one kind of industrial activity, industrial classification is straight-forward. However problems can arise when a corporation is active in more than one kind of industrial activity. This usually occurs when a corporation operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added"<sup>2</sup> or its equivalent. Corporations with several establishments are assigned to the industry that accounts for the largest share of the "census value added" or its equivalent. Inevitably, this procedure distorts the picture of the industrial activity of a corporation.

Large corporations are assigned consistently to the same industry, regardless of observed changes in their nature of business, unless such changes are of considerable importance and are more than of a transitory nature. This imposition of consistency does not in any way alleviate the distortions that will occur when a multi-activity corporation must be assigned to one industry.

## Classification type des industries

La classification des sociétés par activité économique est fondée sur la classification type des industries de 1960.<sup>1</sup>

Il est simple de classer une société lorsque celle-ci se consacre à un genre d'activité bien précis. Toutefois, des problèmes peuvent surgir lorsqu'une société exerce ses activités dans plus d'un secteur. Cela se produit habituellement lorsqu'une société exploite plus d'un établissement. L'établissement (usine, mine, magasin ou toute unité semblable) est défini, aux fins statistiques, comme la plus petite unité d'exploitation distincte en mesure de déclarer tous les éléments de la statistique des activités économiques qui permettent de calculer la "valeur ajoutée recensée"<sup>2</sup> ou son équivalent. On classe les sociétés ayant plusieurs établissements dans l'activité économique qui est à l'origine de la majeure partie de "la valeur ajoutée recensée" ou de son équivalent. Ce procédé fausse inévitablement l'image que l'on donne de l'activité de la société.

On classe toujours les grandes sociétés dans la même catégorie économique, sans tenir compte de modifications dans la nature de l'entreprise, à moins que ces modifications ne soient très importantes ou qu'elles ne s'avèrent permanentes. Cette règle d'uniformité ne corrige pas pour autant les déséquilibres qui se produisent lorsqu'il faut attribuer une catégorie économique à une société exerçant diverses activités.

1 Standard Industrial Classification Manual, Statistics Canada (Catalogue 12-501).

2 "Census value added" is a concept developed from the Census of Manufacturers as a measure of output applied to an establishment or to an industry. It is obtained from the value of gross output in a period, the value of material used, the cost of light, heat and power, the cost of goods purchased for re-sale, and some service expenses commonly incurred at the establishment level. Gross output may be measured as sales or shipments of all goods produced or purchased for re-sale or production. It includes revenues from custom work, sale of electricity and the value of fixed assets produced by their employees for their own use. Approximate equivalences in some other industries are: In trade - "Mark-up on sales" which is the difference between sales and the purchase of goods sold in a period. In construction - The difference between billings, i.e. the value of work done or put in place, in a period and the cost of materials and supplies used and payments made or due to sub-contractors. In service - The difference between operating revenue received or due in a period and the cost of materials, supplies and services recorded in the census as used in the period.

1 Manuel de la classification types des industries, Statistique Canada (N° 12-501 au catalogue).

2 La "valeur ajoutée recensée" est un concept élaboré à partir du recensement des manufactures afin de mesurer la production d'un établissement ou d'une branche d'activité. Pour obtenir cette valeur, on déduit de la production brute au cours d'une période donnée la valeur des matières utilisées, les frais de chauffage et d'électricité, le prix de revient des biens achetés pour la revente et les frais occasionnés par certains services courants dans les établissements. La production brute peut être évaluée d'après les ventes ou les livraisons de tous les produits fabriqués ou achetés en vue de la revente ou de la production. Y sont inclus les revenus provenant des travaux à façon, les ventes d'électricité et la valeur des immobilisations produites par la main-d'oeuvre des établissements pour leur propre utilisation. Parmi les termes équivalents dans les autres branches d'activité, citons: dans le commerce - la marge bénéficiaire, soit la différence entre le chiffre des ventes et le prix d'achat des marchandises vendues au cours d'une période donnée; dans le bâtiment - la différence entre les facturations, c'est-à-dire la valeur des travaux exécutés ou mis en place au cours d'une période donnée, et le coût des matériaux utilisés, majoré des sommes versées ou dues aux sous-traitants; dans les services - la différence entre les recettes d'exploitation reçues ou acquises au cours d'une période donnée et le coût des matières, fournitures et services utilisés durant cette période selon le recensement.

The industrial Organization and Finance Division has made a number of important departures from the conventions adopted in the Standard industrial Classification Manual for the petroleum and natural gas industries, the non-ferrous metal mining, smelting and refining industries and the financial industries. The activities of integrated corporations in the oil and natural gas industries may embrace two or more combinations of either extraction, refining, transportation, wholesaling or retailing. All integrated firms that have activities in petroleum refining (SIC 365) are classified to that industry. All other petroleum or natural gas related firms are classified to the industry that contributes the greatest census value added. A similar departure has been taken in the case of non-ferrous metal mining, smelting and refining industries. Integrated companies are included with metal mining (SIC 053-057-059). A list of the industrial classification codes and their descriptions are presented on the ivory-coloured pages.

La Division de l'organisation et finances de l'industrie s'est sensiblement écartée à plusieurs reprises de conventions établies dans le Manuel de la classification type des industries dans les secteurs suivant: le pétrole et le gaz naturel, l'extraction, la fonte et l'affinage des métaux non ferreux et les finances. Les sociétés intégrées du secteur du pétrole et du gaz naturel peuvent exercer deux ou plusieurs activités dans le domaine de l'extraction, du raffinage, du transport et du commerce (gros et détail). Toutes les entreprises intégrées qui font le raffinage du pétrole (CTI 365) sont classées dans cette activité, et toutes les autres entreprises dont l'activité se rapporte au pétrole ou au gaz naturel sont classées dans l'industrie où la valeur ajoutée recensée est la plus grande. La Division a procédé de la même manière dans le cas de l'extraction, de la fonte et de l'affinage des métaux non ferreux. Les sociétés intégrées ont été incorporées au secteur des mines métalliques (CTI 053-057-059). Une liste des codes identifiant la classification type des industries et une brève description figurent aux pages de couleur ivoire.

CORPORATE  
OWNERSHIP

LIENS DE PARENTÉ  
ENTRE CORPORATIONS

## LIST OF ABBREVIATIONS

<b>CTL</b>	indicates the country of control
<b>SIC</b>	indicates the Standard Industrial Classification
<b>RES</b>	indicates the country of residence, or if known the province of the head office in Canada
<b>%</b>	indicates the percentage of voting rights owned, usually in the current corporation by some preceding corporation (see LEV); except, however, for "INV:" corporations (see below), which hold the indicated portion of the enterprise parent
<b>C</b>	indicates a comment regarding the type of ownership
<b>LEV</b>	indicates the level of ownership; enterprise parents are shown as level "01", directly held corporations are level "02", and indirectly held corporations have larger level numbers; a level "N" corporation is directly held by the earliest preceding corporation with level "N-1"
<b>INV</b>	indicates an owner of the enterprise parent

### Comment Column (C):

<b>A</b>	indicates that control has been assigned for reasons other than ownership of voting rights
<b>D</b>	indicates the corporation is not controlled by this enterprise
<b>R</b>	indicates that the corporation has already been listed within this enterprise, but it has more than one holding company. The companies that are in turn held are not also shown again
<b>AD</b>	indicates that control has been assigned to a different enterprise
<b>AR</b>	indicates that control has been assigned to this enterprise, and it is a repeated listing

## RÉPERTOIRE DES ABRÉVIATIONS

<b>CTL</b>	désigne le pays de contrôle
<b>CTI</b>	désigne la classification type des industries
<b>RES</b>	désigne le pays de résidence ou la province où est situé le siège social au Canada, si on la connaît
<b>%</b>	représente le pourcentage des droits de vote détenus, généralement par une société qui précède la société étudiée (voir NIV); toutefois, dans le cas des sociétés suivies de "INV:" (voir ci-dessous), le pourcentage indique la proportion des droits de vote de la société mère détenus par ses filiales
<b>C</b>	désigne un commentaire au sujet du type de lien de parenté
<b>NIV</b>	indique le niveau du lien de parenté; on donne le niveau "01" aux entreprises mères, le niveau "02" aux sociétés détenues directement, et des numéros plus élevés aux sociétés détenues indirectement; une société de niveau "N" est détenue par la société de niveau "N-1" qui la précède immédiatement
<b>INV:</b>	désigne un propriétaire de la société mère

### Colonne des commentaires (C):

<b>A</b>	indique que le contrôle a été attribué en vertu d'autres critères que la propriété des droits de vote
<b>D</b>	indique que la société n'est pas contrôlée par cette entreprise
<b>R</b>	indique que la société est déjà comprise dans la liste de cette entreprise, mais qu'elle a plus d'une société actionnaire. Les sociétés qui sont à leur tour détenues ne figurent qu'une seule fois
<b>AD</b>	indique que le contrôle a été attribué à une entreprise différente
<b>AR</b>	indique que le contrôle a été attribué à cette entreprise, qui figure ainsi pour la deuxième fois
